

**SHAKE BEFORE USE**

**WOUND**

**RELIEF & REPAIR**

Certified as an Allowed Input for use  
in organically grown cattle

Branding - Dehorning - Castration - Accidental Wounds

1 Litre

## USAGE AND APPLICATION INSTRUCTIONS

### APPLICATION

Shake the product before use. Apply GRO Wound Relief and Repair immediately after completing the surgical procedure.

GRO Wound Relief and Repair to each wound. Apply GRO Wound Relief and Repair to cover each wound and at least a 10 to 15mm radius around the wound edge. This ensures that exposed nerve endings, tissue and blood vessels are covered, providing maximum relief and protection. If coverage is not achieved with the prescribed dose, apply additional product. The spray band width can be adjusted with the applicator nozzle.

Do not touch the wound with the applicator or your hands during the process. GRO Wound Relief and Repair is an oil based formulation and will stick well to the wound along with some migration around the wound area.

### PRODUCT STORAGE

DO NOT REFRIGERATE. Store any unused product in a cool, dry, dark location in the original container. Avoid contamination of the product with any substances including dirt, water or other contaminants. Do not mix old batches of product with new product. Do not combine the product with any other. Store below 30 degrees celsius.
